

FINAL SESSION

Broken Cisterns

“My people have committed two sins: They have forsaken me, the spring of living water, and have dug their own cisterns, broken cisterns that cannot hold water.”

- Jeremiah 2:13

“O my people, listen to the words of the LORD ! Have I been like a **desert** to Israel? Have I been to them a land of **darkness**? Why then do my people say, ‘At last we are free from God! We don’t need him anymore!’

“While most of the brain stops growing eventually, the area related to joy and bonding remains in the fetal biochemistry for the rest of the life, which means it’s in the same readiness to grow as it was before you were born. It’s one of the few parts of your brain that you can actually stimulate and still grow new brain cells and structures. Joy changes you! When someone is glad to be with you it changes you.”
